Person in charge of the course

**Associate Professor Ihor Rokach, PhD, DSc**
rokach@tu.kielce.pl

Courses taught:

"Finite element method"

1", "Finite element method

2", "Optimization using finite element method"

**Fields of scientific interests:**

Fracture mechanics, impact testing, topology optimization, smooth FEM

**IT configuration:**

In a few months Kielce University of Technology will have cluster for computations (about 1000 cores with several TB of RAM).

It would be used to promote Code_Aster in our University and for the local companies.

February 2013
