
EFICA01 - Graphic receipt of tool EFICAS

Summary:

This CAS-test is used as model to pronounce the graphic receipt of tool EFICAS. The objective is to be able to write this test with identical in EFICAS starting from a white page.

One thus tried to place there all a little particular orders of the process control language.

It is about a copy of the test `sdnd102a` which one added:

- the definition of a parameter;
- the inclusion of a file (`INCLUDE`);
- a continuation (`CONTINUATION`).

This documentation is voluntarily brief.
